

FALL/WINTER CONTRACT

Our Firm Price Contract Program offers the opportunity to lock in the price of propane for the Fall/Winter season. Contracting propane now eliminates the risk of a wild upswing in the market. There are three methods that can be used to do this:

Booking - *Specify the gallons needed and pay nothing down.*

Propane will be billed as it is delivered. Payment is due according to our normal credit terms.

PrePay - *Pay for all contracted gallons prior to 8/31/2016 and save \$.03/gal.*

Even Payment – *Price is automatically locked in according to program terms. (See Even Pay Program)*

Delivery of contracted gallons must be taken on or before 3/31/2017 regardless of the program chosen. Talk to your LP Gas salesman or call our toll free number (1-800-282-2174) and your salesman will be instructed to contact you regarding our contracting programs. Contracting your propane early will assure you of getting our initial pricing.
